

COVID-19 statement

July 1, 2020

To our valued Manotak Lodge guests:

We are beyond devastated we will not be seeing our guests from the United States this summer. The Canadian government announced yesterday that the mandatory 14-day isolation and quarantine order will be extended until August 31, 2020. You can read the details [here](#). We know many have been focused on the border re-opening; however, a quarantine order effectively closes us down as no fishing is allowed during quarantine. We will be open for Canadian guests July 21 – September 19.

If you have a reservation from July 25 – September 5, 2020, we will be re-booking you to next year for the same week, same cabin with your deposit rolling to next year. Only reservations with paid deposits will be moved to 2021. If you made a reservation after April 2020 where we did not take a deposit and you want to book for 2021, please contact us and be prepared to pay the deposit to finalize your reservation for 2021.

What does this mean for September 5 – 19, 2020, reservations? Although official word has not been given past August 31st, we believe, based on news reports and local sentiment, that the mandatory quarantine and border closure will continue past August 31st.

If you made a back-up reservation from May, June, or July to later in August or September 2020, you have already been booked into your original dates for 2021. Please call or email if you are not sure of your reservation. We will be re-confirming all reservations via email or phone before the holidays.

If by some miracle the border is open and the quarantine is lifted, we will evaluate if we could feasibly open to US guests in September. Please be aware that the border opening with no restrictions is **highly unlikely**, which is why we are going forward with moving all August and September reservations to 2021.

We are just beginning the process of contacting all guests with August and September 2020 reservations. For now, you will be moved to the same dates and cabin for 2021 as you have in 2020. If you need to change dates, we will have to wait until we re-book everyone to see what is open. Thank you all for your patience and cooperation at this time. Our phones have been ringing non-stop with the news released yesterday. Please leave a message if we do not answer.

Our goal at Manotak is to continue to provide you with a world class fishing trip with the best multi-species fishing, boats, service, lodging, and food. We plan to work on projects around camp and doing some fishing. We will provide fishing and project updates along the way so keep watching our Instagram and Facebook pages! When you return next summer, fishing will be incredible!

We cannot stress enough how much all your love and support means to us. Again, thank you for your prayers. It means the world to us. Please pray for the world and stay safe and healthy everyone!
